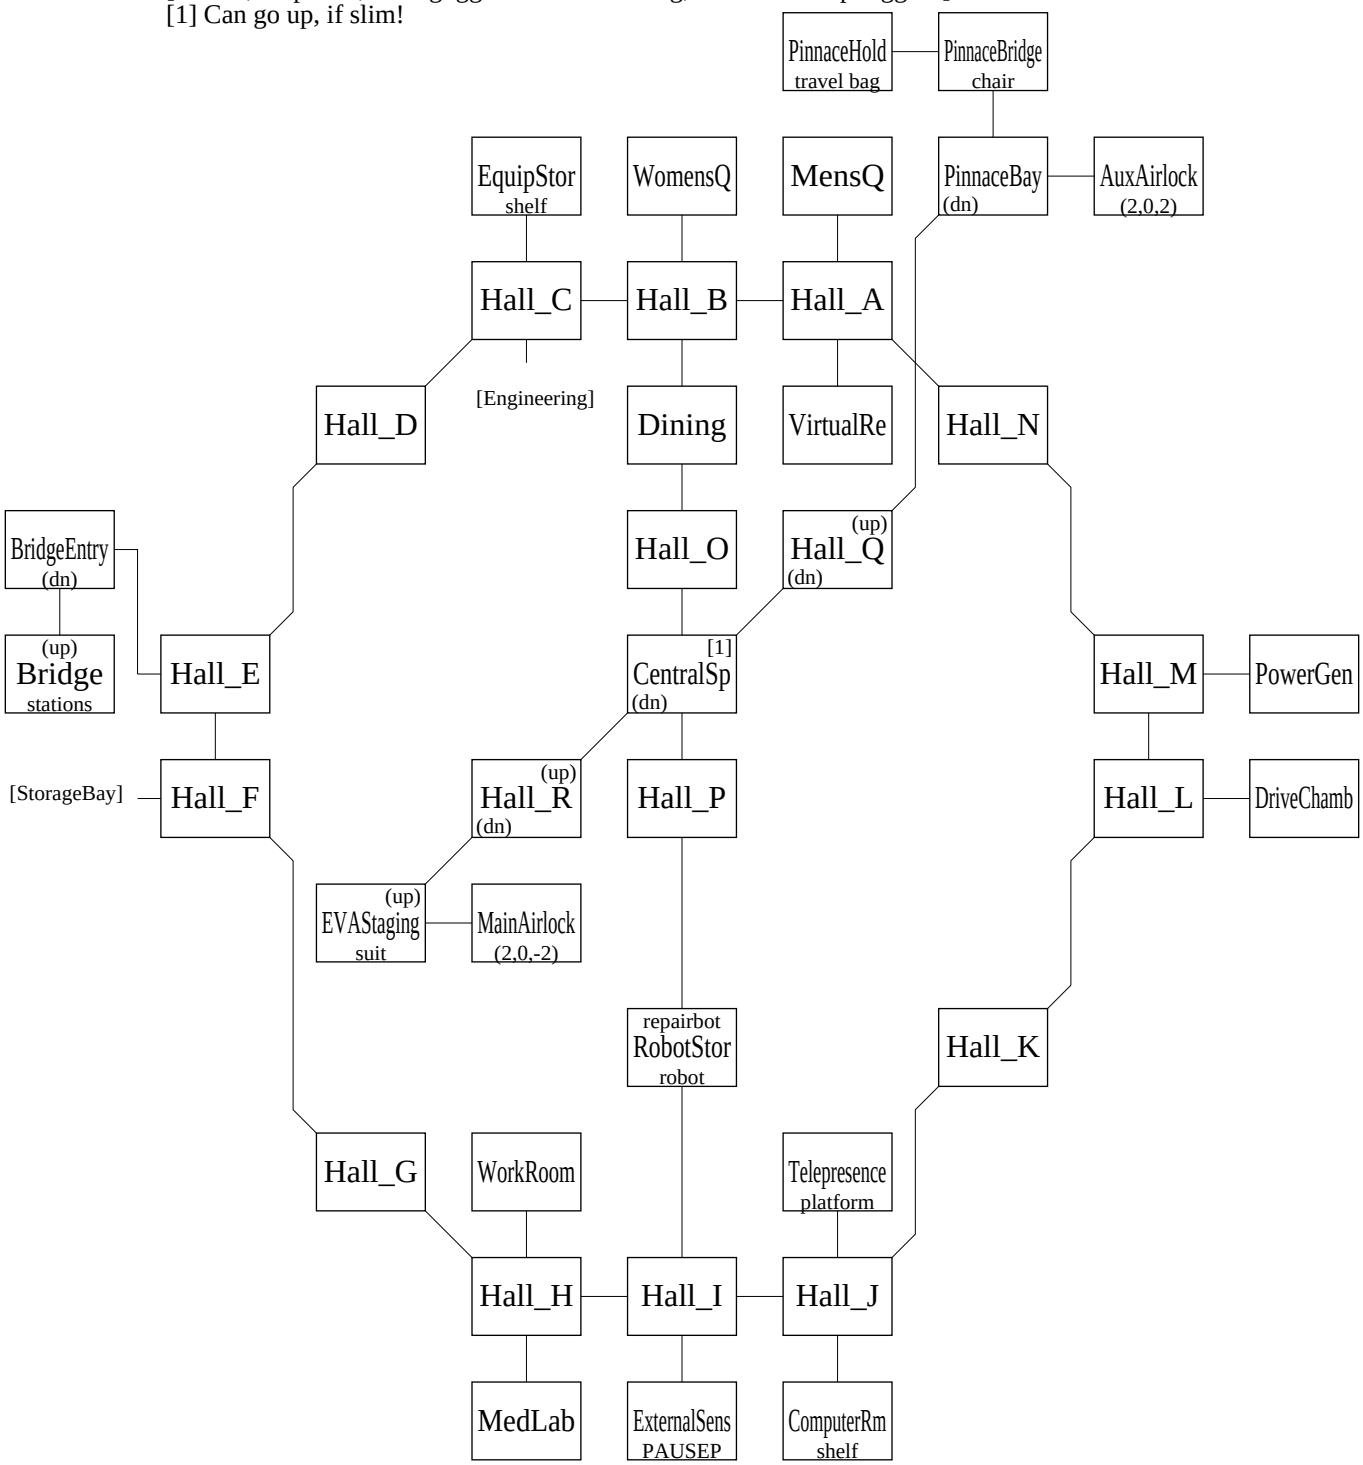
"Enlisted" Interactive Fiction Map


Created by Jeffrey Rosenthal, using "admap" by Fredric Ihren.
[Not much player choice until reach Space Station, except in advanced training must ‘concentrate on concentrating’. Also, best to be ’slim’.]
[Work room will explode after a while, this doesn’t matter.]
[Bring repairbot to PowerGen using telepresence/robot, then from bridge communications station, ’repairbot, repair generator’.]
[From MainAirlock, travel by combining ’x hud’ / lthrust / turnr / roll.]
[External pressure regulator at (-2,-4,0); need to replicate part #45123 in Virtual Reality Chamber, but using the real metal of EquipStor shelf.]
[At end, on planet, need goggles from travel bag; be sure to ’flip toggle’.]
[1] Can go up, if slim!
